Delivering renal-specific testing, analysis and reporting with the accuracy and efficiency clinicians require.

Dialysis Calculations for Quality Assessment of Therapy

- Urea Reduction Rate (URR)
- Kinetics - quick, full and actual Kt/V
- Pediatric Calculations

Rapid Turnaround Times and Reliable Results

- Extensive reviews are conducted for all laboratory results
- State-of-the-art instrumentation automates the processing of specimens—providing a 24-hour turnaround time for most results from the time specimens are received
- Critical results are reported every two hours

Fully Integrated Laboratory Ordering and Reporting

korus™ Spectra's Web-based Korus™ application helps streamline your workflow and keep your focus where it belongs—on patient care.

- Extensive data interfacing capabilities with Electronic Medical Records (EMRs)
- Reports help you assess clinical performance measures at a glance
- Outcome focused reports help you perform trending and QA at corporate, facility, and patient levels
- Clinical Outcome Summary reports help you quickly identify your high-risk patients and provide timely follow-up and intervention
- Patient-friendly report cards help you empower your patients to reach their goals

Helping You Comply with the Latest Industry Standards

- Evidence-driven reports let you see exactly where your patients and facility stand in terms of key industry standards:
 - Centers for Medicare Services Measures Assessment Tool (MAT)¹
 - National Kidney Foundation KDOQI™ Clinical Practice Guidelines
 - Clinical Performance Measures (CPM)
- Comprehensive environmental reports help you easily monitor the safety and efficacy of dialysis treatment
- Interdisciplinary Patient Assessment and Plan of Care assist you in developing the desired outcome for each patient

¹Centers for Medicare and Medicaid Services. Conditions for Coverage 494.110
